# jQuery Widget Test

Create a quantity increment jQuery widget that you can attach to div wrappers.

## Specification

1. Widget creates quantity input field inside wrapper div
2. The widget must be reusable so we can set different step increment size for the second wrapper div
3. There should be + and - buttons besides input so that user can change a quantity by configured step
4. User should be able to also adjust a quantity directly using an input field
5. User should NOT be able to insert numbers <= 0 and numbers that do not divide by increment step size

```html
<!DOCTYPE html>
<html lang="en">
<head>
    <meta charset="UTF-8">
    <title>jQuery UI widget test example</title>
    <script src="https://code.jquery.com/jquery-1.10.2.js"></script>
    <script src="https://code.jquery.com/ui/1.10.4/jquery-ui.js"><
/script>
    <script>
        // Add widget and initialization here...
    </script>
    <style>
        /* Add some styles here... */
    </style>
</head>
<body>
    <div id="qty_wrapper_one"></div>
    <div id="qty_wrapper_two"></div>
</body>
</html>
```
